Illustrated is the historic Water Tower of the town of Kiryat Tivon, Israel. This landmark was one of a number of mostly abandoned water towers throughout Israel that were the focus of Robert Ungar's winning BERKELEY PRIZE 2010 Architectural Design Competition proposal.

The Tower was built in 1940 and was re-purposed in 1995 by Architect Yosef Ben-Naim for use as a public exhibition facility for the Tivon Documentation Center, the town's historical archives.

A presentation of the completed "Water Towers: New Perspectives" design competition was displayed in the facility in the summer 2011.
